WHERE THE OUTDOORS

WHAT IF THE INSIDE DIDN'T END, BUT OPENED INTO MORE AND

**THE OUTSIDE

INDOOR BLENDS INTO OUTDOOR

Architect's Note

LIGHT FINDS ITS WAY IN, JUST THE WAY IT SHOULD.

As architects, we didn't begin by drawing walls, we began by imagining how life should feel inside them. Sumeet Urban Nest is designed around a simple but powerful idea: homes should not end at enclosed rooms. They should extend into light, air, and openness. This is where the **BOHK** concept takes shape, **Bedroom + Outdoor Room + Hall + Kitchen** where the "outdoor room" is not an afterthought, but

a natural extension of living itself. Every home is planned to bring in maximum natural light and cross ventilation throughout the day, creating a sense of ease that modern urban life often misses. Spaces are kept open, breathable, and connected, so that movement between inside and outside feels effortless and intuitive. The result is not just a well-planned apartment, but a home that lives and breathes with its residents, offering comfort, clarity, and a quieter kind of luxury in the heart of Raipur.

WHAT WE'VE
LEARNED OVER TIME,
**BUILT INTO EVERY
HOME HERE.**

At Sumeet Infracon, our journey has always been guided by a simple belief, build spaces that truly add value to the way people live and work. Over the years, we have established a strong presence across Chhattisgarh with developments like Sumeet City of Dreams, Sumeet Landscape, and Sumeet Trade Centre at Pachpedi Naka, Raipur's first ultra-premium corporate hub. Each project reflects our focus on quality construction, modern amenities and well-connected locations. With Sumeet Urban Nest, we continue that approach while taking a step forward in planning.

The introduction of BOHK homes allows us to create spaces that are more usable, more flexible and better aligned with modern living. Driven by integrity, innovation and a customer-first philosophy, we remain committed to creating spaces that are functional, future-ready and built to last.
